THIS LISTING

*Sold by BigRedMachine to MoeHadi for USD \$45,000
April 4, 2025*

This 2021 Chevrolet Express 2500 was modified when new with a high-top Limited SE conversion package by Explorer Van in Warsaw, Indiana, and is finished in gray and beige over two-tone gray and black leather upholstery with diamond-patterned stitching. Power is provided by a 6.6-liter V8 linked with a six-speed automatic transmission. The van is outfitted with 20" alloy wheels, revised lower body panels, power-deployable running boards, a center console cooler, a rear sunroof, front and middle-row captain's chairs, a Samsung television, privacy shades, a vacuum, front and rear climate controls, ambient lights, and a power-folding third-row bench. This Express Explorer Limited SE has 63k miles and is offered by the selling dealer with a set of wireless headphones, an air pump, manufacturer's literature, a window sticker, a clean Carfax report, and a clean Ohio title.

The high-top van is finished in gray and beige and features revised lower body panels. Additional details include LED daytime running lights, faux fender vents, tinted windows, a front bug guard, a rear sunroof, power-deployable running boards, rear

parking sensors, a backup camera, a receiver hitch, and Explorer Van Co. emblems and badging. There are paint chips on the bumpers.

Black-finished 20" alloy wheels are mounted with 265/50 BFGoodrich Advantage T/A Sport LT tires. Braking is provided by antilock discs at all four corners and Stabilitrak stability control was equipped from the factory.

The forward cabin houses heated and power-adjustable captain's chairs upholstered in gray and black leather with diamond-patterned stitching while woodgrain trim accents the door panels, dashboard, and armrests. Amenities include power windows, locks, and heated side mirrors, a touchscreen infotainment system, and cruise control. Safety systems equipped at the factory include side blind zone alert, lane departure warning, and forward collision alert.

The leather-wrapped multifunction steering wheel frames a 100-mph speedometer and auxiliary readouts for oil pressure, coolant temperature, voltage, and fuel level. The digital odometer indicates 63k miles, approximately 500 of which have been added by the selling dealer.

Cargo-hinged passenger-side doors provide access to the rear passenger compartment, which is outfitted with dual swiveling captain's chairs and power-folding third-row bench that folds flat into a bed. Other amenities include ambient lighting, privacy curtains, storage cabinets, rear climate controls, a vacuum, a Blu-Ray player, and a Samsung television.

The 6.6-liter V8 was factory rated at 401 horsepower and 464 lb-ft of torque. An oil change was performed and the battery was replaced in preparation for the sale.

Power is delivered to the rear wheels via a six-speed automatic transmission and a rear axle with 3.42:1 gears.

The Carfax report shows no accidents or other damage.

Sold on 04/04/2025 for USD \$45,000 to MoeHadi

This listing was sold via an offer

For auctions that do not meet reserve, the seller has the opportunity to make an offer above the final bid. The highest bidder can accept, decline, or make a counteroffer to try and work out a deal.

BigRedMachine (The Seller)  149

Wow! Super surprised this van fell short. Maybe bad time of day or all the rain! [@MoeHadi](#) we will see if we can get together in the offer system. This is a lot more van than that!
Thanks everyone!

BigRedMachine (The Seller) 👍 149

Less than 24 hours to go on this awesome conversion van!

Some key highlights that set this one apart from other Conversion Vans on the market:

- 6.6L V8 with 401HP. A lot of power for traveling through the mountains! A lot of these Vans are equipped with 4.3L V6 or smaller!
- 2 Tone diamond stitched interior
- 32" TV
- 1 Owner!

I will be available till the end should anyone have a question. Please use the "Contact Seller" button to message me.

Have a great evening!

BigRedMachine (The Seller) 👍 149

@shayndersen – There is no crack, it is a reflection from the floor. In regards to the seat, it is dust/dirt from a shoe getting in out, not damage. For the tires, I'd have to measure. They look to have some life left but I do believe they are the originals from 21 so would need replaced eventually.

shayndersen 👍 24

Sorry to bother, 3 queries....could you clarify with another photo angle whether there is a crack in the facing below the headlight on the right (photo 32)...is there damage to the leather near the front base of driver's seat (photo 72)...lastly any estimate of tread wear depth on tires and/or date codes? Thanks

TNGuy  452

Wow as conversions go this one is in fine taste and not gaudy. Love the functional step for ladies and small children. If I'm correct, that is a 402 cubic inch making 400 HP and that is a robust engine. Good luck with the auction. Someone is going to get a sweet ride.
